

Toenail fungus.

It's a contagious infection that won't go away on its own.

#1 PRESCRIBED brand for toenail fungus

A Guide for Treatment Application

IMPORTANT INFORMATION: JUBLIA is for use on toenails and surrounding skin only. Do not use JUBLIA in your mouth, eyes or vagina.

Read the Instructions for Use that comes with JUBLIA before you start using it. Talk to your healthcare provider if you have any questions.

How to apply JUBLIA:

Your toenails should be clean and dry before you apply JUBLIA. Wait at least 10 minutes after showering, bathing, or washing before applying JUBLIA.

Step 1: Remove the cap from the JUBLIA bottle.

Step 2: Prepare JUBLIA for application.

- Hold the JUBLIA bottle upside down directly over the affected toenail and **gently squeeze** the bottle to moisten the entire brush with the solution.

Step 3: Apply JUBLIA

- While holding the bottle upside down, use the moistened brush to apply JUBLIA by brushing it gently onto the affected toenail(s). **Gently** squeeze the JUBLIA bottle to moisten the brush if needed.
- **Gently** spread JUBLIA over the entire toenail around the cuticle, folds of the skin next to the sides of the toenail, and underneath the end of the toenail.
- **Do not squeeze** bottle while spreading JUBLIA. **Do not press or rub** the brush firmly against the toenail.

Step 4: For the big toenail, repeat Step 3 to apply JUBLIA a second time.

Step 5: After applying JUBLIA, the entire toenail and surrounding skin should be covered with the solution. Let the treated area dry completely before covering it with bedding, socks, or other clothing.

Step 6: Replace the cap tightly on the bottle.

Step 7: Wash your hands with soap and water after applying JUBLIA.

How should I store JUBLIA?

- Store JUBLIA at room temperature, between 68°F to 77°F (20°C to 25°C). Do not freeze JUBLIA.
- Keep the bottle tightly closed and store in an upright position.
- JUBLIA is flammable. Keep away from heat and flame.

Keep JUBLIA and all medicines out of the reach of children.

INDICATION

JUBLIA (efinaconazole) topical solution, 10%, is a prescription medicine used to treat fungal infections of the toenails.

IMPORTANT SAFETY INFORMATION

- JUBLIA is for use on nails and surrounding skin only. Do not use JUBLIA in your mouth, eyes, or vagina. Use it exactly as instructed by your doctor.

Please see additional Important Safety Information on reverse and [click here](#) for full Prescribing Information for JUBLIA, including Patient Information.

Sticking with treatment

JUBLIA is typically applied once daily for 48 weeks, exactly as directed by your doctor. It may be useful for you to establish a routine or daily applying regimen to help you stick to your treatment.

Additionally, the time it takes for a healthy nail to grow back varies from person to person. Even after the fungus has been eliminated, **nail regrowth can sometimes take a year or longer**. This is why full results with JUBLIA may not be seen until 52 weeks have passed.

What is toenail fungus?

Toenail fungus is an infection that lives underneath the nail, in the skin of the nail bed. Toenail fungus is more than a cosmetic concern. Recurrence is common.

Symptoms of toenail fungus may include

- Thickening of the nail
- Change in nail shape
- Brittleness
- Discoloration
- Loosening/lifting of the nail
- Crumbling of the nail edges

How JUBLIA works

JUBLIA is **specifically formulated to reach the site of onychomycosis** to treat toenail fungus. Follow the steps on the reverse (and the accompanying Instructions for Use) to apply JUBLIA with its flow-through brush applicator.

IMPORTANT SAFETY INFORMATION (CONT'D)

- It is not known whether JUBLIA is safe and effective for use in children under 6 years of age.
- Before you or your child uses JUBLIA, tell your doctor about all medical conditions, including if you are pregnant, are breast feeding, or plan to breastfeed, because it is not known whether JUBLIA can harm an unborn fetus or nursing infant.
- Tell your doctor about all medications you or your child is taking, and whether you or your child has any other nail infections.
- JUBLIA is flammable. Avoid heat and flame while applying JUBLIA to the toenail.
- JUBLIA may cause irritation at the treated site. The most common side effects include: ingrown toenail, redness, itching, swelling, burning or stinging, blisters, and pain. Tell your doctor about any side effects that bother you or do not go away.

To report SUSPECTED ADVERSE REACTIONS, contact Ortho Dermatologics at 1-800-321-4576 or the FDA at 1-800-FDA-1088 or visit www.fda.gov/medwatch.
